

# TOOL LIST

BUILDING THE 12' PEAPOD DORY

W/ GRAHAM MCKAY

The following is a basic set of tools that should serve you well for all manner of woodworking, boatbuilding, etc. While **only the highlighted tools are needed for your course**, if you plan on continuing your hobby, this list can serve as a guideline for a good, basic set of tools. If you are driving and you already have any of these items (or more), please feel free to bring them along. If you are flying, you can stick to the required list, and pare it down as needed.
