

TOOL LIST

FITTING OUT THE CALENDAR ISLANDS 20

W/ CLINT CHASE

The following is a basic set of tools that should serve you well for all manner of woodworking, boatbuilding, etc. While **only the highlighted tools are required for Building the Calendar Islands Yawl**, if you plan on continuing your hobby, this list can serve as a guideline for a good, basic set of tools. If you are driving and you already have any of these items (or more), please feel free to bring them along. If you are flying, you can stick to the required list, and pare it down as needed. We will be adding a section to the resources page on our website that talks about the tools in more detail and where you can buy them.
